## INTRODUCTION

This, the twenty-fifth annual maritime bibliography, includes books and articles published in 2007, as well as some works published in earlier years. The subjects included are as follows: naval history, mercantile history, nautical archaeology (but not the more technical works), biography, voyages and travel, and art and weapons and artefacts.

A list of acquisitions of manuscripts precedes the published works cited, and we are, as always, grateful to The National Archives: Historical Manuscripts Commission (TNA: HMC) for providing this.

With regard to books, International Standard Book Numbers (ISBNs) have been included, when available.

The bibliography for 2007 was prepared and edited by:

Karen Partridge  
Michael Partridge, PhD, FRHistSoc

It is particularly requested that all correspondence relating to the bibliography for 2008 should be sent to:

Dr. M.S. Partridge

The compilers would like to thank everyone who contributed to the present bibliography, and always welcome the assistance of readers.

We should also like to acknowledge our use of the material listed in the *Tijdschrift voor Zeegeschiedenis*.

## ARCHIVES

The National Archives in its annual *Accessions to Repositories* exercise collects information from over 200 record repositories throughout the British Isles about manuscript accessions received in the previous twelve months. The information is then edited and used to produce a number of thematic digests which are distributed for publication in a number of learned journals and newsletters, as well as being made available in full on TNA's website ([www.nationalarchives.gov.uk](http://www.nationalarchives.gov.uk)).

The information is also added to the indexes of the National Register of Archives (NRA), the central point for collecting and disseminating information about the location of manuscript sources relating to British history outside the public records. The NRA, which currently contains over 44,000 lists and catalogues of archives, can be consulted at the National Archives, Kew, Richmond, TW8 4DU. Alternatively, searchers may access the indexes to the NRA and certain linked on-line catalogues via the website. Limited and specific enquiries can be dealt with by post, or email ([enquiry@nationalarchives.gov.uk](mailto:enquiry@nationalarchives.gov.uk)).

Readers should note that dates for records in this digest are given when known, but that these are covering dates which do not necessarily indicate the presence of records for all intervening years. Records have been included in the digest regardless of whether the deposit has yet been fully catalogued, and readers are advised to check with the relevant repository as to whether this, or any other factors, may affect access to the documents.
