Introduction

This, the twenty-seventh annual maritime bibliography, includes books and articles published in 2009, as well as some works published in earlier years. The subjects included are as follows: naval history, mercantile history, nautical archaeology (but not the more technical works), biography, voyages and travel, and art and weapons and artefacts.

A list of acquisitions of manuscripts precedes the published works cited, and I am, as always, grateful to The National Archives: Historical Manuscripts Commission (TNA: HMC) for providing this.

With regard to books, International Standard Book Numbers (ISBNs) have been included, when available.

This bibliography for 2009 was prepared and edited by Karen Partridge. Any correspondence relating to the bibliography should be sent to her at:

12 The Brambles, Limes Park Road, St Ives, Cambridgeshire, PE27 5NJ
email: Karenpartridge@orangehome.co.uk

The compiler would like to thank everyone who contributed to the present bibliography, and always welcomes the assistance of readers.

I should also like to acknowledge my use of the material found in the *Tijdschrift voor Zeegeschiedenis*.

Introductory note to accessions 2009

The National Archives in its annual Accessions exercise collects information from over 200 record repositories throughout the British Isles about manuscript accessions received in the previous calendar year. The information is then edited and used to produce 32 thematic digests, which are distributed for publication in learned journals and newsletters. They can also be accessed through the National Archives website (www.nationalarchives.gov.uk).

This information has already been added to the indexes of the National Register of Archives (NRA), the central point for collecting and disseminating information about the location of manuscript sources relating the British history, outside the public records. The NRA, which currently contains over 44,000 lists and catalogues of archives, can be consulted at the National Archives, Kew, Richmond, TW9 4DU. Alternatively, searchers may access the indexes to the NRA and certain linked on-line catalogues via the website. Limited specific enquiries can be dealt with by post, or email: asd@nationalarchives.gsi.gov.uk

Readers should note that dates for records in this digest are given when known, but that these are covering dates, which do not necessarily indicate the presence of records for all intervening years. Records have been included in the digest regardless of whether the deposit has yet been fully catalogued, and readers are advised to check with the relevant repository as to whether this or any other factors, such as closure periods, may affect access to the documents.
