Introduction

This, the thirty-first annual maritime bibliography, includes books and articles published in 2013, as well as some works published in earlier years and not included in earlier bibliographies. The subjects included are as follows: naval history, mercantile history, nautical archaeology, biography, voyages and travel, and art and weapons and artefacts.

A list of acquisitions of manuscripts precedes the published works cited, and I am, as always, grateful to The National Archives: Historical Manuscripts Commission (TNA: HMC) for providing this.

With regard to books, International Standard Book Numbers (ISBNs) have been included, when available.

This bibliography for 2013 was prepared and edited by Karen Partridge. Any correspondence relating to it should be addressed to her at:

email: bibliographyeditor@snr.org.uk

The compiler would like to thank everyone who contributed to the present bibliography, and always welcomes the assistance of readers.

Introductory note to accessions 2013

In its annual 'Accessions to Repositories' survey The National Archives collects information from over 300 record repositories throughout the British Isles about manuscript accessions received in the previous twelve months. This information is added to the indexes to the National Register of Archives, and it is also edited and used to produce thirty-six thematic digests that are then distributed for publication in a number of learned journals and newsletters.
